Università di Torino

Applications are invited for a Post-Doctoral position sponsored by University of Torino and Compagnia di San Paolo on a project entitled “Advances in nano-structured materials: Biosensor for arachidonic acid detection”. The research will be carried out in the Structural and Functional Proteomics group (www.biochemistry-scienze.unito.it) in the Department of Life Sciences and Systems Biology.

The research is part of a collaborative programme with NIS-Centre of Excellence (Nano-structured Interfaces and Surfaces). The position is initially for one year with a starting date of Jan. 2013. Qualified applicants should have experience in one or more of the following areas: protein expression and purification, fluorescent spectroscopy, surface chemistry –for biosensing.

Applicants should send their CV and list of publications to Prof. Gianfranco Gilardi (gianfranco.gilardi@unito.it) and/or Dr. Sheila Sadeghi (sheila.sadeghi@unito.it).
