Thesis Title \_\_\_\_\_

\_\_\_\_\_

**Methods** (Minimum length 400 words)

**1<sup>st</sup> Report:** after two months from the beginning date (Minimum length 400 words), including Methods (Minimum length 400 words).

**2<sup>nd</sup> Report:** after four months from the beginning date (Minimum length 400 words)

**3<sup>rd</sup> Report:** a month before delivering the thesis to the Bologna student secretary (Minimum length 400 words)

**Please note:**

- the written final version should be given to the “Commissione Didattica” of the CdL in Bioinformatics one month before of its official presentation to the student’s secretary for the final approval by the tutor
- The tutor is the thesis coordinator when the work is performed in one of the laboratories of the Bologna University supporting the Laurea Specialistica in Bioinformatics (<http://www.biocomp.unibo.it/lbioinfo>); the tutor is one of the professors of the CdL in Bioinformatics, assigned to the student by the “Commissione Didattica” upon presentation for the approval of the stage-thesis work; the local tutor is supposed to support the student and his work through the whole stage-thesis period performed in any laboratory outside the Bologna University and is approving the **1-3 Reports**.
